English is okay, but the descriptions of atrocities become unnecessarily graphic. If you are not completely desensitized by the American film industry, you might want to skip some of the textual descriptions, which frankly add nothing to the game. Neither does the forced vulgarity, which suddenly crops up in the game.

The game is otherwise reasonably enjoyable. Figuring out how the barn functions may require some attention. Why my people stopped mating, even though they had ample house space, I'm not sure. Nicely thought out concept, other than the unnecessary vulgarity and descriptions of unspeakable brutality.. Volume 3 was the first YDKJ game I experienced (as a demo in a disc lost a long time ago). I just can't remember how many long afternoons and nights were spent with this timeless classic. It's one of those games that looks deceptively simple but ends trapping you within its complex instances of verbal abuse, sarcasm and overall wittiness.

And the wrong answer triggers... Just priceless, as well as a trademark of the whole series. Cookie FTW!

Extremely recommended, even for playing against yourself and ranting at the screen when you get those Impossible Questions wrong.. A great game does not need achievements or trading cards but if that is all one plays for - this game has neither.

I would call this a sleeper, great gameplay, good storyline, and mostly definitely a Hidden Object game. It is fast paced with smooth transitions, so fast and smooth in fact one is at the end (hours later) before one realizes it. It is not a short game though and about the average length for an HO game (around 4 or so hours).

Storyline: Singing Star's husband White Wolf is missing, and she sets off to find him. She goes to the Manitu (element or nature spirits) for help. Her journey involves finding various plants and objects in different locations to use in spells. As the journey unfolds the player meets the Manitu and learns their intentions are not always what they seem.

Gameplay: 98% of this game is HO scenes, no point and click elements or any puzzles. Even the map is only used to move between HO scenes in any order the player choses. There are several HO scenes for each chapter while looking for ingredients and objects needed to make a potion or later at the request of the Manitu. The HO scenes are colorful and detailed. (Even the chapter transition "black and white" ink drawings are quite amazing.)

A few things to note about the HO scene find clues. 1) They are unusual clues, mostly plants and animals most people have not heard about. Since there are no hint penalties I suggest using them. I had to hint and look up some myself. I had no idea an ewer was a pot-like jug with a handle. Some other examples are cane (which means cane sugar plants which look like cattails in fact), puddle (Really? A puddle of water? - How unique!), algae (and not the normal pond scum variety, but the long Sagrasso type that grow like monstrous wide bladed grass under the sea), and of course I can not forget the flying cow. (Totally serious the

---

clue is cow and it is flying and the player has to click on it when it zooms by.) I have not had this much fun playing HO scenes for a while. Such unique and unusual clues. 2) None of the find clues are unfairly hidden either. But in every scene there are one or two that are especially cleverly hidden. Oh the player can see them quite plainly after finding them but they blend so well, one either needs to know where they are there or really has to look for them. 3) The find clues are more and less appropriate to the settings. Or at least to the game theme of Native American indigenous cultures (both North and South America) all jumbled together and throughout time. Basically what I mean is there are no used tires or hammers or bicycles. Very nature oriented with an entire education on plants, animals and birds if one is so inclined. 4) I only found one clue misspelling: broken bow should be broken bowl. It happens (shrugs). Can not complain otherwise about the text.

Remember I said this game is 98% Hidden Object, the other 2% is a mini-game the gamer plays twice and a Match 3 game which has various uses. First the mini-game, it is potion making (in a cauldron). The point of the mini-game is to change the color of the potion to a different color using the plants or things gathered from the HO scenes using a recipe chart and quite literally drawing a magic symbol over the brew. Sounds easy, but it is not. This is a real brain teaser of a puzzle, and if one goofs up one has to start from the beginning again. Fortunately there are only 4 things that can be put in the brew. The gamer only plays the mini-game twice but gathers stuff to make potions often.

Second is the Match 3 game. This Match 3 game is used as a Hidden Object scene, gathering mana orbs to make potions and boss battles. Yes, you read that correctly **BOSS BATTLES**. Boss battles in a Hidden Object game, my oh my. Then again the player is dealing with nature spirits. I have run into this type of boss battle scenerio before in a game called Cave Quest. But comparing those battles to these, these will kick your butt if not careful. Think Gems of War maybe. Good luck with the battles. They are tough since your opponent starts out with 2-3 times higher hit points then you do. (No skip option either.) My only suggestion is take your time, there is no time limit.

Beautiful artwork, great gameplay, fast moving storyline and 98% Hidden Object. Who can could ask for anything more from an HO game? (That's rhetorical by the way, so do not answer.)

Highly recommend.. Painkiller Hell & Damnation: Medieval Horror

fast game with modern day graphics with easy controls that moves from location A to B to C and so on, good amount of action and special effects,

good game.

Personal Suggested Purchase Price: \$0.99 Or Less During Sale. **VERY HARD TO PLAY!** I recommend for people who really likes puzzles, It can get a bit tiring if you give up easily like me, but over all fun

Very nice and easy-to-use drawing software.  
Highly recommended for new users and beginners.

:). Classic isometric top-down shooter that takes you back to the original Alien Shooter but now with the new features from Alien Shooter 2 included.. So far, I can't recommend this. It has a clunky, hard to use UI, seems a bit cheap, and, worst of all, has wonky player, team, and league information. It's difficult to tell who is or isn't good, there are very limited options in terms of managing the team and contracts, etc.... I've only played a little bit so far, because hopefully mods and such will improve things in the short term and Cyanide works out clunky bugs in the long term. I desperately want a good football management sim, but this isn't one right now.. Paradox DLC broke my family apart.. Hegemony has the greatest gameplay of any strategy game out there right now. Very fluid control and satisfying resource management. It strikes a perfect balance.. Game is broken, second scene crashes everytime, within about 10 minutes. Can't get my money back because the error message kept me from closing the game for over 4 hours. DO NOT BUY!!!. Link to the official patch that allows you to enjoy the full game:

<https://the-last-sovereign.blogspot.com.br/vp/desecration-of-wings.html>. This one is bs. I played the whole game on hard and all the dlc. This is the last campaign and has a bizzare difficulty jump. I trudged through the entire campaign on har until last mission. The last mission Surgical Strike is impossible. I have been playing it over and over again for two days. I guess I wont be able to beat it. If anyone has beaten it without using the bug let me know. This just seems like bad design.
